

**New!**

A mascara you take off with warm water - we love that! Since its launch in December - via cable shopping and then Myer Melbourne - Australian-owned Mirenésse has been making in-roads into the beauty market, mostly through word of mouth (comedian Julia Morris is one of their biggest fans). Sensitive skin types especially will love the low-irritant, smudge-proof mascara. It's not oil-based, which means it comes off easily in little balls with cotton wipes, and is available in two sizes - 10ml, \$25, and 5ml, \$13. Check out the full range, including plump lipsticks, at Myer Melbourne, selected pharmacies and boutiques. Call 1800 666 880.

**Hold it!**

You have the right brush, now you need some something to work with. Matthew James's Jam Wax is a non-greasy, soft-hold product that goes on wet or dry hair. Great for separating and emphasising individual curls, or for a sleek, wet look. Jelly Wax creates firm-hold definition to finished styles, while leaving hair soft and natural-looking. Great for a brilliant shine. Flexible Gel, meanwhile, is just that. It's a firm hold that enables you to create the latest styles with maximum staying power. Apply to the root area for volume and lift. The Matthew James International range, \$5.95, is available at Price Attack stores nationally.
