

1 Summer love
Rimmel Mini Lipsticks, \$5.95, are on everyone's lips in London, and now they've arrived Down Under. Don't miss out on the 15 fresh and funky shades that will keep your lips cool and moist on those hot summer nights. We really love (from left to right) Vibe, Smooch and Baby Doll.

2 Cool aid
Maybelline's new Cool Effect Cooling Shadow/Liner, \$13.25, and Cooling Cream Eyecolor, \$11.25, glide on effortlessly for a weightless feel. Better still, they will last you the whole day long. Colours are lovely, luminous and ever so fresh.

3 A micro miracle
Truly glowing skin can be yours with mirenésse Micro Dynamic Day Gel, \$49.50 (for two 10ml vials). A unique trans-dermal delivery system assures vitamins, minerals, co-enzyme Q-10 and age-defying lipids reach the deepest layers of skin, in a unique, safe and gentle way.

4 Chic and sleek
DKNY's energetic, vibrant and fruity fragrance is available now in Energising Body Scrub, \$60. Used prior to showering, the scrubbing beads remove dull surface skin, leaving you feeling as smooth as silk.

5 Hard as nails
L'Oréal Shock Proof Nail Colour, \$11, stays put for up to five days, thanks to its super strength. Available in 12 shades, it delivers a finish that's either sheer and sexy, creamy and chic or perfectly pearlescent.

6 Massage in a bottle
In Essence Blended Body Oils, \$16.95, nourish the skin and help calm the senses. With six divine blends to choose from, these oils will both soothe and relax the body and the mind.

7 Soft touch
Dry, sensitive skin will love Nivea Visage Gentle Cleansing Creme Wash, \$8.45. Containing moisturising microbeads, soothing chamomile and aloe vera, it removes make-up and impurities, while keeping the skin's natural, protective oils intact.
